Players Participating in the Long Island High School Championship Games

Dear LI Lacrosse Showcase Participants,

This year the New York State High School Tournament Semi-Final Games will be played on June 7th. This date falls in the middle of the First Round of the Long Island Lacrosse Showcase. This presents a conflict for a small percentage of players that are members of a high school team that has advanced to that level of the NY State Tournament. The directors of the Long Island Lacrosse Showcase have created a policy to *advance any such player to the Final 50 Round* if their team is still actively participating in the state tournament.

Below is the policy that will be implemented for those players:

- To be eligible for the Final 50 Round, all players must have registered for the Long Island Lacrosse Showcase **BEFORE** the First Round Tryout for their respective grade-level.

- The player must be on the active roster for the varsity squad. Players brought up from the JV for the playoffs are considered on the active roster for the varsity squad. Verification of player status will be made with the varsity coach of the team.

- All players on varsity teams that do not advance beyond the Long Island Championship are required to participate in the First Round if their grade is scheduled for the June 8th or June 12th dates.

All dates for the Long Island Lacrosse Showcase can be found on our website at:
